evonicfires

ELECTRIC FIRES EXCLUSIVELY THROUGH INDEPENDANT FIREPLACE SHOWROOMS

CONTENTS

Founded in 2005 and based in Stratford upon-Avon, evonicfires occupy a 30,000 sq ft manufacturing facility. Technological advancements and multi-award winning designs make evonicfires one of the leading manufacturers in Europe.

evonicfires are proud to showcase our innovative new ranges of outstanding electric fires. Adding to our award-winning e-series, suites & inset fires, we have developed a string of unique & exciting products that beautifully pair elegant design with state-of-the-art technology. From our eagerly anticipated Halo models,esteemed e-series range, and a brand new range of traditional electric fires, evonicfires can offer a heating solution for every household.

WHY CHOOSE ELECTRIC?

- Low capital and installation costs

- No combustion, meaning less emissions of harmful particulates, including $PM_{2.5}$

- No need for chimneys or flues

- Countless environmental & health benefits

- Low lifetime costs as there is next to no maintenance

- Reduces your carbon footprint

- No annual safety checks or inspections

- Allows users versatility when choosing a desired location as all you need is a plug

- Complete control over your fire through your smartphone or tablet

CONTROL FROM YOUR SMARTPHONE OR TABLET

Both Halo and traditional ranges are operated by using the latest IoT technology, our e-smart app means you can have complete controllability over your fire.

With a built-in thermostat, adjustable LED brightness and animation settings control, the e-smart app allows users to manage every aspect of their appliance simply from their smart phone, tablet or PC.

All suites & e-series, both evoflame® and evoflame ultraHD are operated by the e-touch app. Features such as temperature control, flame brightness and 7-day programmer are included.
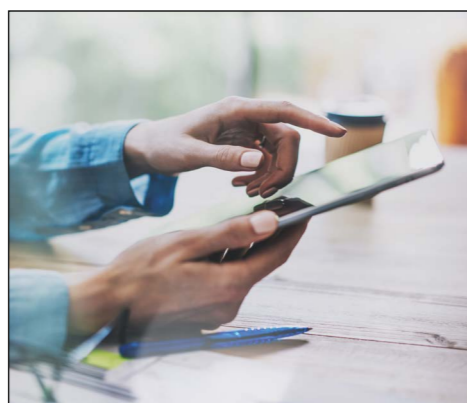

Our e-smart App has been designed to give customers seamless control over their Halo or traditional fire.
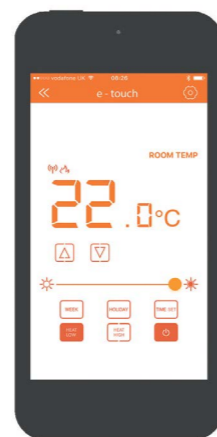

The e-touch® control system is a fully portable, rechargeable, blue-tooth based touch screen unit, featuring a built-in thermostat, enabling you to regulate and maintain the seleced room temperature with ease.

WHAT IS HALO?

Halo is our latest innovation in flame design. Halo allows complete personalisation of your flame effect, featuring RGB driven LED technology, allowing limitless animations to feature in your chosen appliance. Simply connect your device to your router and choose one of the 6 pre-selected animations or enjoy creating your own flame effects with a unique spectrum of colour options. Halo is available in suites or fires throughout our brochure.

You can download the e-smart App on Google Play and the Apple App store. Halo fires are fully compatible with Alexa, giving users the ability to control their fire through voice command.

Download on the App Store

GET IT ON Google Play

THE RANGE

Halo, our latest innovation in electric fires, is a new RGB flame effect that comes with pre-set animations -
Still / Breathe / Spectrum / Embers / Odyssey / Aurora

Our traditional range of electric fires are perfect for those looking for a high quality product, and are complete with conversion panels to adapt into 2 or 3 sided models (excludes suites).
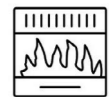

Our inset fires come in various contemporary and traditional designs. They are the perfect addition for both modern and traditional surrounds.

Our award-winning e-series range are a versatile, modern day electric fire with the latest LED lighting technology. These models come in a variety of sizes, and complete with conversion panels to adapt into two or three sided models.

Our range of contemporary electric fire suites bring that added touch of style to your living space.

Our authentic range of electric stoves offer a great alternative to woodburners. With their realistic flame effect, these models are the ideal focal point of any room.

OPTIONS

SILVER BIRCH

For a cool, contemporary look. Our silver birch logs will add style & sophistication to your fire.

WOODLAND

For the traditionalist, our woodland ceramic log set is guaranteed to give your fire an authentic look.
